MOVEMENT FOR THE FORMATION OF THE STATE OF DESERET .- ST. Louis, May 28, 1856 .- The Salt Lake mail has arrived here, bringing dates to the 26th of March.

A Convention for forming a State Constitution met at the Council House, on the 17th of March, and organized by the election of Hon. J. M. Grant President. Committees were appointed to draft a Constitution. They had a conference on the 24th, and unanimously reported a Conititution for the State of Descret. Chief Justice Kinney dissented from the report, but only on one point, viz:-That he preferred to have the Judges elected by the people rather than by the General Assem-

The Republican to day publishes the Constitution of the State of Deseret, recently formed and ratified by the people, in general Convention, at Salt Lake City, April 6th. It is exceedingly brief and plain, and seys nothing about slavery. It announces the free toleration of all religions, and does not refer to polygamy.

A memorial was adopted asking admision into the Union, and Geo. Smith and John Taylor were appointed delegates to present it to Congress.

[For the Union and American.] THE PRESBYTERIAN CHURCH-SLAVERY. I observe in your issue of Tuesday last, an editorial notice of the action "of the Presbyterian General Assembly recently assembled in the city of New York, upon the slavery question," and an extract from an incendiary abolition speech of the Rev. T. A. MILLS upon that subject before the body. As both branches of the Preabyterian church, the Old School and the New, were sitting in New York at the same time, and you do not discriminate between them in your notice, I beg to say, the speach from which the extract was made, was delivered before the New School body. The subject of slavery was not before the Old School Assembly at all. That branch of the church is thoroughly national and conservative, and the question of slavery finally settled by the action of the General Assembly of 1845, by a nearly unanimous vote.

AN OLD SCHOOL PRESENTERIAN. TRIBUTE OF RESPECT TO THE LATE JAMES WALK ER, JR. At a meeting of Deluge Fire Company, No. 3

held last night, the follow preamble and resolutions were adopted : Wheneas, the melancholy intelligence has reached our city from Nicaragua that our much esteemed young friend, our noble, gallant and fearless Bro. Fireman James Warker, Jr., died at Masaqua, on

the 15th day of May ultimo. We feel that some

testimonial at our hands is due to his many excellent qualities of mind and heart. But a few short days ago he left us in the full loom of youth and health, accompanied with four other members of our company, who like himself knew no fear of danger, but with hearts filled with patriotism they all left their homes to enroll themselves under the glorious banner of the intrepid brother of our friend, the gallant Gen. William Walker. Little did we dream when our young friend bade us farewell, that it would be the last time we should look upon that manly form, but felt as we received his last warm grasp a joyous hope within us that the gallant Deluge Boy, at no distant day, would send back the glorious news of assisting and proclaiming to the world a victory which had secured to an oppressed people liberty

and independence. We are proud to say before the world, that we knew he possessed a heart that never flinched when danger was near; we have seen him tried on many occasions, and a truer or firmer man never stood

before a burning pile. He was one of our most zealous and active members, and was always foremost in deeds of benevoleace. Nicaraguans, we would invoke the God of battles to bless and crown your efforts in the noble cause in which you are engaged, and we call upon you by the ties of common brotherhood, to delend the spot which holds the sacred remains of the brave and gallant member of No. 3, who went am ngst youto share your hardships and to rejoice

in you triumphs. But it has pleased the omnipotant fiat to deerce it otherwise, and our young friend and brother sleeps the sleep of death in a distant land. It is a consolation to know that he had those around . im who kn w his worth and who did all that could be done to stay the hand of the grim messenger, but when the alorm was sounded, James Walker, Jr was never known to fail in his attendance though death stared him the face; and while we mourn over his sudden and unexpected departure, we bow with humble submission to the Divine will of Him who holds the destinies of us all in His hands, and say, not our will, but thine be done.

Therefore be it Resolved, That in the untimely death of our riend and brother, James Walker Jr., Deluge Fire Company No. 3 and the Fire Department of our city have lost one of its most gallant, fearless and zealous members, and our country at large has

THAYER'S (ALBERT D.) AGRICULTURE.—The
Principles of Agriculture, by Albert D. Thayer; translated by William Shaw and Cuthbert W. Johnson, Esq. lated by William Shaw and Cuthbert W. Johnson, Esq. F. R. S. With a Memoir of the Author. I vol. Svo, strong cloth. Price \$2.50.

This work is regarded by those who are competent to judge, as one of the most beautiful works that has ever appeared on the subject of agriculture. At the same time that is eminently practical, it is philosophical, and, even to the general reader, remarkably entertaining.

Von Thaer was educated for a physician; and, after reaching the summit of his profession, he retired into the country, where his garden soon became the admiration of the citizens; and when he began to lay out plantations and the citizens; and when he began to lay out plantations and orchards, to cultivate herbage and vegetables the whole country was astonished at his science in the art of cultiation. He soon entered upon a large, farm, and opened school for the study of Agriculture, where his fame became known from one end of Europe to the other.

This great work of Von Theer's has passed through four editions in the United States, but it is still comparatively unknown. The attention of owners of landed; es tates in cities and towns, as well as those persons engaged

TO THE PUBLIC OF THE UNITED STATES. AN advertisement of Mr. UDOLPHE WOLFE, lately AN advertisement of Mr. UDOLPHE WOLFE, lately published, as I suppose, intended for the protection of his Schiedam Scnapps agrinst counterfeiters, has come under my observation, and being engaged in the manufacture of Schiedam Scnapps, were I to let it pass without notice through this medium, I might be considered among those he denominates "Pirates and Peniers of Poisses," but the immense patronage and success that has attended the sale of the article manufactured by me, and the opinion of competent the article manufactured by me, and the opinion of competent judges as to its qualities as a beverage and its medical virtues, precludes the possibility of the idea that I am included among those he designs to impegn. No doubt he feels aggriered at the depreciation of the sale of his Schnapps which is manifest to all, since mine has been brought in competition with his. Not only have I succeed in competiting with him in quality, but the constant and increasing demand of my article, has canbled me to furnish it at a less price than he can, or does—say \$2.00 in the dozen. And farthermore, he will seen become satisfied that his caution to the citizens of the "Southern and Western States" will avail him nothing as far as I am concerned, for the character of my Schiedam Schapps is too well established in those States, to be injured by any such invidious publication.—The motive of his a ivertisement is obvious to every one, and feeling well satisfied that all such missiles thrown at me by him will fall harmless at my feet, I will here, for the satisfaction of the public, publish a copy of my Patent Right, entered in the Southern District of New York, on the 2cth day of December, 1854:

Professor Wood's Hair Restorative. It has worked Miracles !

Trade dull.

That all the bald and gray can be restored perfectly riginal growth, so far as their looks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions-even scald head -and in no possible case will it fail of curing, as if by magic, servous or periodical headache, and if used twice a week by the young, regularly, it will preserve the color, and keep the hair from falling, to any imaginable age .-Read and judge.

MESSES. O. J. Wood & Co.:
Gents—Yours of the 18th came duly to hand. Enclosed, please find thirty-eight dollars, it being the amount for Hair Restorative. I have sold it all. \* \* If you choose, you may send six dezen bettles Hair Restorative; I think I can sell it. It has worked miracles in this place. I sold a man six \$1 bottles, that was bald, and it fetched new hair out all over his head. Yours, respectfully

M. H. GRIDLEY.
C. R. R. OFFICE, VANDALIA, June 91, '61. Prof. Wood—Dear Sin I take pleasure in bearing vol-untary testimony to the excellence of your Hair Restorative. Three months ago, my hair was very gray. It is now a dark brown, (the original color,) smooth and glossy. The only application I have made to it, has been the Hair Restorative prepared by you, and which, from the result in my own case, I can most cordially recommend to others. Respectfully, yours, EDWARD WOLCOTT.

VINCSENES, Ia., June 21, 1858. Prov. O. J. Woop: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it—that I have, for several years, been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I knew. It en tirely cleanes the head of dandruff, and with one month proper use, will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all tuis, without discoloring the hands that apply it, or the dresson which it drops. I would, therefore, recommend its use to every one destrous of having a fine color and texture to hair.

Respectfully, yours, WILSON KING. Sr. Louis, June 29, 1858. Prov. Woon: As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state, that my hair was, a few the ago, very gray, and after using two bottles of your months ago, very gray, and after using two bottles of your Hair Restorative, it resumed its original color; and since its application, all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied, that those who use it, will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

I am, sir, yours, etc., CINCINNATI, Ohio, Feb. 10, 1854. Pror. Woop-Dear Sir. My hair had, for several years Prof. Wood—Dear Sir. My hair had, for several years, been becoming prematurely gray, accompanied by a harsh; ness which rendered the constant application of oil necessary in dressing it. When I commenced using your hair Restorative, about two months ago, it was in that condition and having continued its use till within the last three weeks, it has turned to its instural color, and assumed a softness and lustre greatly to be preterred to those pro-duced by the application of oils or any other preparation I have ever used. I regard it as an indispensable article for every lady's toilet, whether to be used as a Hair Restorative, or for the simple purpose of dressing or be the hair. You have permission to refer to me all who en-tertain any doubt of its performing all that is claimed for it. MRS. C. SYMONDS,

144 Third st. WATERTOWN, Mass., May 1, 1854. PROF. O. J. WOOM: Allow me to attest the virtues and magic powers of your flair Bestorative. Three months since, being exceedingly gray, I purchased, and soon commenced to use, two bottles, and it soon began to tell, in restoring the silver locks to their rative color, and the hairs which was before dry and barsh and failing off, now be. came soft and glossy, and it ceased falling; the dandruff disappeared and the scalp lost all the disagreeable itching so annoying before, and now, I not only look, but feel young again.

Respectivily, yours, etc.

Even the Railroad and high Taxes have not set it back In order to keep pace with the spirit of the age and to give all portions of our beautiful city and its vicinity a fair chance, the gentlemanly Proprietors of the town of Mc-Gavock, have generously allowed us to offer a portion of that noble scheme to the public. We, therefore, propose

Thursday, the 19th June, to offer at Public Sale, a number of magnificent Lots, situated on Fillmore Avenue, Scovil street and the Buena Vista Turnpike. We feel that our powers of description are inadequate to

the task of properly setting forth the beauties and advan-tages of these grounds. It would require the fertile imagination and classic pen of the talented author of "Glencliff to do justice to our thems. Seated

how appropriately and elequently, one, "with fancy free,"
(particularly after imbibing copiously from the Fountain
of Heidsick,) might, as he surveyed the scene before him,
descant upon the glories of angient Greece and Home, ipon Arcadian Groves, Sylvan Streams. Capitoline Hills. Greena Porticos and Egyptian Temples. After souring aloft in such style, could be restrain his Fega-us so far as to

descend to the present times, and view things as they are, be would see immediately before him the Great High Way of Nations, commencing at the semitest corner of Maine, only to end on the Pacific, teeming with its millions of

Lassengers and groaning under its loads of freight; grac-fully crossing the beautiful Sewattee and taxtolully windin

its way around the base of our majestic Cap tol. No longer can these grounds be descerated by the presence of Swine, the believing of Buils or the braying of Jack asses, as that amphithestre has furtunately Lean removed to our extreme southern confines.

Trans.—This word slipped in accidentally. How natural it is these days for all things to end in money. We did not intend to arrive at this point so soon, but it would come. Neverthaless we have you will not consider us did not intend to arrive at this point so soon, but it would come. Nevertheless we hope you will not consider us mercenary. We are a good caell like our poliucians, brimfull of paterictism, work for the dear people out of pure love and affection for them, and as for money, and taking care of ourselves, oh, no! we never mention them. Like the Cincinnant Convention, this sale is gotten up exclusively pro bono public. Nevertheless like those particle leaders, Pierce, nuchanan, Douglas, &c., we will gratefully receive slight tokens of regard for our emment and dissuferested public services, and in this instance we beg leave to singless that they be in the shape of notes payable in bank, running from one to fire years in such sums as the public running from one to five years to such sums as the public may kindly ciclate, the two first with satisfactory riders,
